

**Refroidissement de la Terre  
et formation des océans**

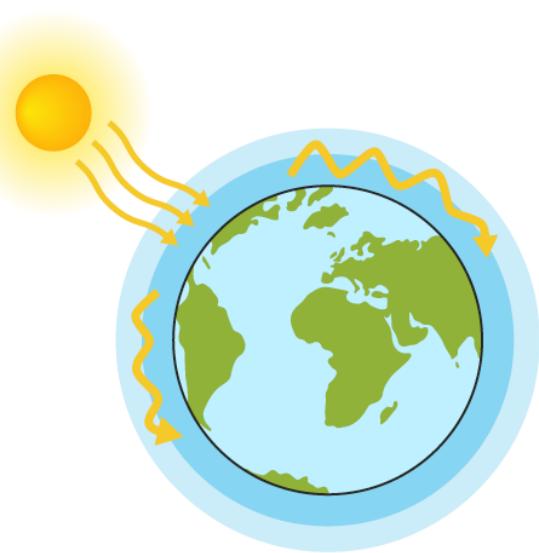

**Formation de la Terre  
par accrétion**

**Bombardement  
de la Terre**

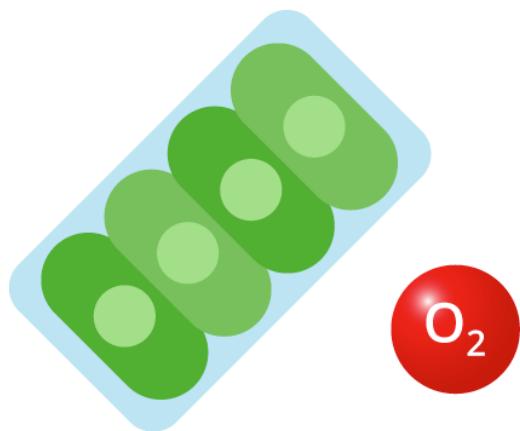

**Oxydation du fer et  
formation des fers rubanés**

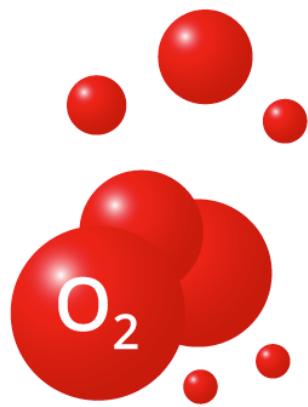

**Formation de la  
couche d'ozone**

**Dégazage du  
manteau terrestre**

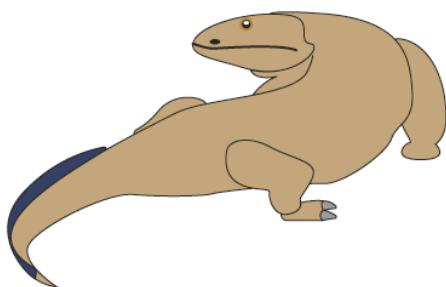

Apparition de la vie  
dans les océans et  
formation du dioxygène

Oxygénéation de  
l'atmosphère

**Enrichissement de  
l'atmosphère en  
 $N_2$ ,  $CO_2$  et  $H_2O$**

**Apparition de la  
vie terrestre**
